

Dear Dr. Effenbein,

9-7-09

Enjoyed seeing you again, too bad it was for tooth #18 - again! This damn tooth, it'll be the death of me yet! Oh how I hope it can be saved.

Dr. Effenbein, I sincerely thank you for trying to get to the root of the problem - no pun intended!!

Never have you given me the bum's rush. You always managed to find time, even on short notice when you were already sooo busy.

Your generosity for my last visit was appreciated more than you'll know. I feel so fortunate to have an endodontist w/ a heart, not to mention a brain.

You're great Doc & so is your staff.

w/ Fondness & Gratitude,

Michelle
