I'd like to express my deepest thanks and gratitude to all at the Clifton Endodontics office for the pristine service and care provided during my visits. Everyone is so very professional and pleasant from the moment you walk through the door and throughout the visit. Each often going the extra mile to ensure patient comfort is achieved. Though most would think of pain when such oral procedures are required; I can't express enough the excellence of care mentally, emotionally, physically and even financially every staff member put forth to ensure my experience was handled with true professionalism, ease and excellence. The environment is never rushed, yet extremely proficient and well managed with the exuberance of true teamwork. Thank you all! You are highly recommended!
